About

I'm an Entrepreneur. I'm proud to work as Blogger, LAMP Programmer, Linux Admin, Web Consultant, Idea Creator, Cloud Manager, Apps Developer, Searcher.

What is an Entrepreneur?

Putting up a new **enterprise** may sound very hard but for the entrepreneur, nothing is impossible to achieve.

Innovation, creativity, leadership, being a risk-taker and having the right inner drive or passion are some of the keys to being a successful entrepreneur.

If you possess these things, nothing can stop you from being one of the **biggest names in the marketplace**.

There are thousands of opportunities that you can find from **emerging communications, culture and science and technology.**

All you need to do is identify these business opportunities and turn them into a **real business enterprise.**

However, choosing a good business opportunity requires careful **study and market research.**

Even if entrepreneurs are known to be **risk-takers**, they still have to make sure that they are entering a good business.

If you want to know more about the definitions of an entrepreneur, you can easily search for the meaning of the word in popular search engines like **Google and Yahoo**.

By using the **power of the internet**, you can find a lot of definitions for you to understand the word much better.

There are many resources to find online, all it takes is **diligent research**.

Being an entrepreneur is an **exciting and challenging task.**

If you have the guts, the capital, the right inner passion, **appropriate qualities and skills,** don't hesitate to introduce something new to the market.

Besides, most customers like new stuff. So what are you waiting for?

About

> Study the market and see if you can enter it and become a new entrepreneur.

In simple words we can say Entrepreneurship is "**My Work is My Life**"

Concentrate > First think about applications of your knowledge!
Observe > Second find latest trends around us!
Imagine > Third pick good idea from your knowledge!
Launch > Finally do your best from step 1st to step 3rd!

This is REALITY .... 😃

Area of interest:
* LAMP (Linux, Apache, Mysql, PHP)
* Open Sources
* Mobile Applications (iPhone, Android)
* Facebook API
* Amazon Web Service
* Google Applications
