Installing Plugin from uploaded file: shoutcast-icecast-html5-radio-player.zip

Unpacking the package...

Installing the plugin...

Plugin installed successfully.

Activate Plugin | Return to Plugins page

HTML5 MP3 Player (in wordpress admin left menu)

http://www.domain.com/wp-admin/options-general.php?page=shoutcast-icecast-html5-radio-player.php

Here you have to enter Icecast / Shoutcast Radio MP3 stream URL

You can select which radio server version you have to create player

- Shoutcast 1
- Shoutcast 2
- Icecast

You can find existing Radio Players here

http://www.domain.com/wp-admin/options-general.php?page=shoutcast-icecast-html5-radio-player.php&show=list

You can change player's artwork, background image

You can set player's initial volume level, width, height, Count Listeners

You can set player autoplay, metadata (current song informatio), song history for shoutcast radio server

You can set social link facebook, twitter, googleplus

Shoutcast Icecast HTML5 Radio Player Options - Saved Players

Radio Stream Link:	http://server:port/ (MP3 Codec)
	Note: Please make sure shoutcast / icecast server port is open on your server firewall as outgoing port to read shoutcast / icecast current playing song information...
Radio Type:	Shoutcast 1 ▾
Player In Background:	# 000000
Player Out Background:	# ffffff (if Player Background Image is blank)
Player Shadow:	✔
Player Autoplay:	☐
Song Metadata:	✔
Song History:	☐ (Only Shoutcast)
Count Listeners:	✔
Volume Level:	0 ▾ %

Now click on **"Save Settings"**

Shortcode will look like **[html5mp3 id=1]**

You can use shortcode in wordpress page or post

Player preview
